more open to new books
reading Persuasively and made me
read Wild destroyed my picky

Reader

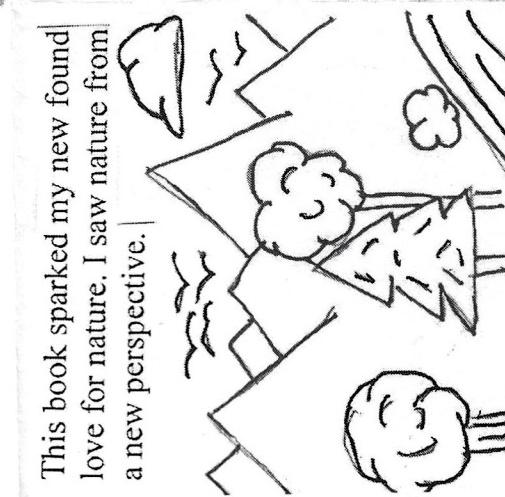

My love for math was very strong
for me because it was came too
easy. Reading, however, was not.

Like a picky eater who likes to eat
ketchup and salsa, yet hates
tomatoes, I am a picky reader. I
love journals and history books,
yet hate fiction books.

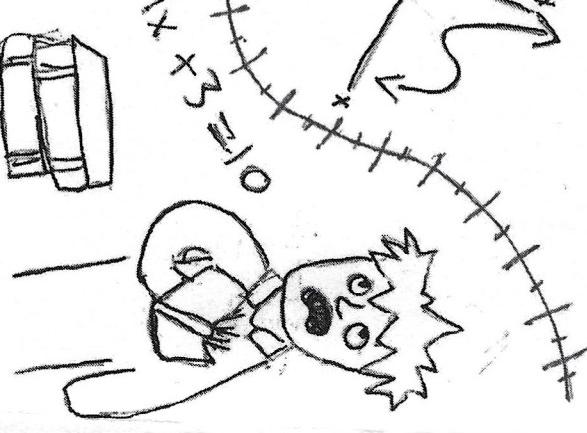

This book sparked my new found
love for nature. I saw nature from
a new perspective.

Yet as a picky reader, I was forced
to read books that I wouldn't read
on my own.

I had to read Wild by Cheryl
Strayed

As a picky reader, I am known for
literally judging books by their
cover. If I see a book that has a
weird title IDK if I can read it.
